ANJANINITHIN CHALAMCHALA

## EDUCATION

### B-TECH Dept of CSE

IIITDM KAANCHEPURAM

2023-2027

CGPA 9.1

### BIE

Sri chaitanya college

2021-2023

Score-97.6%

### SSC

sri chaitanya school

graduated 2021

Score-98.1%

## POSITIONS

- JOINT CORE CS CLUB IIITDM
- Class representative - CSE
- Member,decor club

## SKILLS

- Python
- React JS
- Verilog
- Xilinx vivado
- Postgres SQL
- PHP
- c\c++
- HTML
- CSS
- Javascript
- AI driven Full stack
- MySQL

## PROFILE

Motivated student with a strong desire to learn quickly and enhance technical proficiency. Skilled in computer operations. Adaptable and hardworking team player with experience supporting team needs in both academic and project settings

## WORK EXPERIENCE

### Research Project: FPGA-Accelerated Metaheuristic Optimization for MDTWNPP

**On-campus | Jan 2025 – Present**

• Designed and implemented an FPGA-based accelerator for the Multi-Dimensional Two-Way Number Partitioning Problem using metaheuristic algorithms (Binary Bat Algorithm, Grey Wolf Optimization, Binary PSO).

• Developed custom SystemVerilog IP cores for population generation, fitness evaluation, and parallel execution of 100 agents, integrated with BRAM-based shared memory on Xilinx ZCU106.

• Achieved significant speedup over CPU implementation by parallelizing computation and optimizing memory access using pipelined architecture and floating-point IPs.

### Intern Engineer, GearUp: Innovative Web Portal for Motorcycle

**Remote | June 2024 – August 2024**

- Worked as an Intern Engineer on GearUp, an innovative web portal for a private motorcycle business.
- Designed and developed a responsive and user-friendly front- end to showcase product catalogs, specifications, and promotional content

### Full-Stack Developer – Supermarket Billing System

*Remote | Personal Project*

Built a full-stack web application for a supermarket billing system to streamline operations and enhance user experience.

- Developed customer and admin portals with login, profile management, and order tracking features.
- Designed an admin dashboard for inventory control, sales reporting, employee management, and profit analysis..
- Tech stack: HTML, CSS, JavaScript, PHP, MySQL
- Live demo: supermarketbilling.wuaze.com

### Project Leader, Course Project: SMART HOME AUTOMATION

**IIITDM Kancheepuram | October 2024 – December 2024**

- Developed an Object-Oriented Programming (OOP) project to integrate and control various electric appliances in a smart home environment.
  - Implemented functionalities to log device usage timings, calculate power consumption for individual appliances, and efficiently manage device operations.

## Intrests

- Competitive Programming: Actively participate in coding contests to enhance problem-solving skills and algorithmic thinking.
- Web Development: Passionate about building interactive, user-friendly web applications using modern frameworks and technologies.

## Volunteering

- Joint Core, CS Club, IIITDM Kancheepuram – Organized and conducted club events, managed logistics, and coordinated technical sessions.
- Volunteer, Samgatha Cultural Fest, IIITDM Kancheepuram – Assisted in event organization, team coordination, and logistics management for a successful cultural fest.
